December 4, 11, 18,  
January 8, 15, 22, 29,  
February 5, 12, 19

\*Spring Session - 12 classes (2/26 - 5/28)

### Possible Topics:

**“Rokenbok Engineering”**  
**“Jurassic Jamboree”**  
**“Gross Out Chemistry”**  
**“Build & Code”**

**Bricks Bots & Beakers  
is your Birthday Party Solution!**  
**\*\*themes of your choosing\*\***

### Bricks

From step-by-step building classes for kids who like structure, to creative, open-ended classes for kids who like to explore, our programs appeal to all types of learners.

### Bots

Coding comes naturally to children through the authentic, real-world application of programming robots.

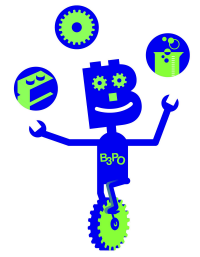

### Beakers

From forming hypotheses to drawing conclusions, kids become scientists and have a blast. We also explore our world around us; space, nature and animals.

## The S.T.E.A.M. Solution For Your Child

Curricula that features direct instruction is key to building **STEM** skills and knowledge in preschool children. **B3** classes help children build executive function skills including; organizing information, staying focused, strategizing, planning, and exercising self control.

***“Just as with language and literacy, STEM education should start early in order to maximize its benefits and effectiveness”.***

Elisabeth McLure PhD. February 3, 2017 Sowing the Seeds for Successful STEM Learning in Early Childhood.  
Preschool Mayters Today. National Institute for Early Education Research. Rutgers University.

**12 Fall/Winter Classes \$300**
